PROJECTS

- UI Design Marketing Management Application** ([Link-Behance](#)) – 2025
Focuses on designing a website-based Marketing Management and Admission Data Visualization Application for the Promotion Division of UKSW.
- UI Design SDGs Web** ([Link-Behance](#)) – 2024
UI/UX design for an informative website that supports the Sustainable Development Goals (SDGs). The project includes well-structured and user-friendly interfaces to raise awareness and share knowledge related to SDG topics. Designed using Figma.
- Car Rental Website PHP** ([Link-Github](#)) - 2024
A web-based car rental system that allows users to browse, book, and manage car rentals. This project was built using PHP and MySQL, with features such as CRUD operations, booking management, and user authentication. Developed to enhance efficiency in vehicle rental processes through a simple and functional interface.
- E-commerce LIIBro Store** ([Link-Github](#)) - 2023
Lilbro Store is an e-commerce platform specialized in selling liquor products, offering a wide selection of alcoholic beverages such as whiskey, wine, beer, and vodka. The platform features a dynamic shopping cart system, automated shipping cost calculation, secure checkout, and integrated payment gateway simulation to provide a seamless and user-friendly online shopping experience.

EDUCATION

Universitas Kristen Satya Wacana Aug 2022 - July 2026
Informatics Engineering

- Achieved a GPA 3.83
